

UNIVERSITY OF WISCONSIN-MADISON CLERY CRIME & FIRE LOG GLOSSARY

CITATION ISSUED - A ticket has or will be issued.

CLEARED BY ARREST - A suspect has been charged and referred to a court for prosecution.

CLERY CLASSIFICATION - A crime has been reported that meets the elements of a “Clery crime,” but has not yet or will not be officially classified as the “Clery crime” for UWPD investigative or charging purposes.

DISCIPLINARY REFERRAL - Indicates that a crime has been referred to the Dean of Students or another University office for adjudication.

DISPOSITION - The current status of a particular crime report. Dispositions are updated one business day of when a change is made, until 60 days from when the Time Reported, when the crime is removed from the Clery Crime & Fire Log (Log).

EVENT # - Indicates that a particular incident reported on the Log was reported to the University of Wisconsin Police Department (UWPD). Conversely, N/A indicates that a crime has not been reported to UWPD.

FIRE EXTINGUISHED - Indicates that a residential housing fire was put out and there is no evidence of arson.

LOCATION - The street address or intersection where a crime was reported to be committed.

MADISON POLICE REPORT - A call for service reported through Dane County 911 to the Madison Police Department (MPD). For a current disposition or more information, please contact MPD at 608.266.4075 or cityofmadison.com/police/support/records.

NON-POLICE REPORT - An incident reported to Clery staff that has not been reported to law enforcement. Due to their nature, the dispositions of these reports are unknown.

OFFENSE - The nature of the crime committed. One criminal incident may lead to multiple offenses noted in the Log under one Report #. For example, one person possessing both drug paraphernalia and marijuana will be reflected as both Drug Paraphernalia and Marijuana Possession.

OPEN ACTIVE - Case is being actively investigated.

OPEN INACTIVE - A suspect has not been arrested or cited and the case is not being actively investigated at this time.

OUTSIDE JURISDICTION - Crime was originally reported to have occurred within UWPD jurisdiction, but after investigation has been determined to have occurred outside UWPD jurisdiction but remains on the Clery Crime & Fire Log in compliance with the Clery Act.

REPORT # - The report number maintained by UWPD, MPD, or a University disciplinary office that corresponds to a particular case.

TIME OCCURRED - The date and time that a crime was reported to have occurred. When a particular date and time is unknown, an estimate is provided. If an estimate is impossible, Time Occurred is listed as Unknown. In previous entries “12:00 AM” may have been used as a place filler for an unknown time.

TIME REPORTED - The date and time that a crime was reported to a University official or UWPD.

UNFOUNDED - The criminal allegation was found to be false or baseless after the completion of a police investigation. A crime may be “unfounded” for Clery-purposes where there is no report filed. An example of this would be a report of a motor vehicle theft where the owner simply forgot where they parked their car, and remembered where it was before a police officer could respond to take a report. In this case, there would be no formal **UWPD** report to unfound because there was not enough time to create a report before the owner remembered where the car was parked.

VERBAL WARNING - A suspect has been issued a verbal warning but no citation or arrest was made for the particular crime.
